

□

IBM Directory Server 6.4 Fundamentals
Information

Length:	16.0 Hours
__Ref:	TW085G□
Delivery method:	ClassroomInstructor Led Online
Price:	AUD

Overview

This course describes the processes, procedures, and practices necessary to configure and administer IBM Directory Server. During the hand-on exercises, students will perform basic Directory Server configuration, setup replication, use logs and problem determination tools to troubleshoot directory server.

Students will not only learn about the components, functions, and features that are part of the directory server, but will learn about typical deployment scenarios of the directory server, as well.

Public

LDAP Administrators
