Overview

\*\*\* For inquiries and scheduling for this course,  
please contact [wfssedu@us.ibm.com](mailto:wfssedu@us.ibm.com) \*\*\*

This is an IBM ISDR course.

**Contains:** instructional and interactive content, demonstrations and hand-on simulated exercises.

This training is designed to enable software developers to develop and implement business processes for the IBM OpenPages GRC platform using the IBM Business Process Management application. The focus will be on integration points with IBM OpenPages GRC Platform and the Platform Toolkit that provides reusable components and functionality to allow accessing OpenPages object instances, integrating user interfaces as well as process troubleshooting and maintenance tools.

Public

Integration engineers, software engineers, IT specialists, integration specialists, and IT operations specialists who want to develop and implement business processes for IBM OpenPages

Prerequisites

- IBM OpenPages Core Team Fundamentals (at a minimum)
- IBM OpenPages Administration (recommended)
- Familiarity with IBM Business Process Manager (8.5.7 or later)
- Solid understanding of Business Process Management (BPM) concepts

Objective

Please refer to course overview.
