

□

IMS Parallel Sysplex Implementation
Information

Length: 8.0 Hours
__Ref: CM62G □
Delivery method: Classroom
Price: AUD

Overview

This course replaces CM620. Learn about the migration and operational issues of moving from a non-sysplex, non-data sharing Information Management System (IMS) environment to an IMS Parallel Sysplex environment with shared data and shared queues.

IACET Continuing Education Units: 3.2

Public

IMS system programmers and Database Administrators (DBA) responsible for designing and implementing an IMS Parallel Sysplex environment.

Prerequisites

No

Objective

- Plan for migration to an IMS Parallel Sysplex system
- Understand the complexities of coupling facility structures
- Perform basic system administration for an IMS Parallel Sysplex operation
- Understand system recovery in an IMS Parallel Sysplex environment
