

□

IBM Tivoli Netcool Impact 7.1 Administration and Implementation Information

Length:	32.0 Hours
__Ref:	TN045G □
Delivery method:	ClassroomInstructor Led Online
Price:	AUD

Overview

This course teaches students how to deploy and administer IBM Tivoli Netcool/Impact through practice exercises. This course is designed specifically for anyone who might be technically responsible for the design and implementation of Netcool/Impact, a highly scalable analytics engine that adds event and service enrichment and business impact analysis for event data. You should expect exposure to all fundamental elements of Netcool/Impact with a focus on developing policies within the Netcool/Impact product and exploring the features that enhance the visualization, usability, and integration functions. The visualization enhancements are facilitated by the integration of the IBM Dashboard Application Services Hub, which is part of Jazz™ for Service Management, and Netcool/Impact features such as the UI data provider.

Public

This basic course is for:

- Implementers
- Architects
- Specialists
- Administrators
- Support personnel

Prerequisites

You should have:

- Basic Linux administration skills
- Netcool/OMNibus administration skills
- Basic scripting skills

Topics

- Introduction to IBM Tivoli/Netcool Impact

- The Netcool/Impact user interface
- The Netcool/Impact data model
- Policies
- Services
- The Enrichment policy
- Controlling policy execution sequence
- Policy wizards
- Notification policies
- Reports
- Operator views
- Working with web services
- Hibernation, X in Y, and synthetic events
- Event suppression and maintenance window management
- Command-line tools and self-monitoring
- The Netcool/Impact UI data provider
- Server utilities Introduction to IBM Tivoli/Netcool Impact
- The Netcool/Impact user interface
- The Netcool/Impact data model
- Policies
- Services
- The Enrichment policy
- Controlling policy execution sequence
- Policy wizards
- Notification policies
- Reports
- Operator views
- Working with web services
- Hibernation, X in Y, and synthetic events
- Event suppression and maintenance window management
- Command-line tools and self-monitoring
- The Netcool/Impact UI data provider
- Server utilities Introduction to IBM Tivoli/Netcool Impact
- The Netcool/Impact user interface
- The Netcool/Impact data model
- Policies
- Services
- The Enrichment policy
- Controlling policy execution sequence
- Policy wizards
- Notification policies

- Reports
- Operator views
- Working with web services
- Hibernation, X in Y, and synthetic events
- Event suppression and maintenance window management
- Command-line tools and self-monitoring
- The Netcool/Impact UI data provider
- Server utilities
