InfoSphere Data Explorer Administrator Training Information

Length: 5.0 Days
__Ref: DW220G-X
Delivery method: Classroom
Price: EUR

Overview

This five day hands-on training course is for those who want comprehensive InfoSphere Data Explorer training. It will give you hands on experience with configuration, operation, and maintenance of the Data Explorer software, as well as discuss both the theory and application of implementing solutions.

This is an education on the product formerly known as Vivisimo Velocity. This content is comparable to that which was previously contained in the 5 day Vivisimo Velocity Administrator training.

Public

This intermediate hands-on training course is for those who want comprehensive InfoSphere Data Explorer training. It is designed for System Administrators, Developers, Content Managers, Project Managers, Librarians, and anyone seeking a comprehensive overview of Data Explorer as well as training on the latest version of Data Explorer.

Prerequisites

You should have:

- A working knowledge of both XSLT**and** XPath.

It would be helpful if you have navigated the Data Explorer Administration Tool**and** worked through some of the online documentation tutorials.
