# IBM InfoSphere QualityStage Essentials V8.7

## Information

**Length:** 4.0 Days  
**Ref:** KM211G-X  
**Delivery method:** Classroom  
**Price:** EUR

## Overview

This course teaches how to build QualityStage parallel jobs that investigate, standardize, match, and consolidate data records. You will gain experience by building an application that combines customer data from three source systems into a single master customer record.

This course replaces *IBM InfoSphere QualityStage Essentials V8 (KM210)*.

## Public

This basic course is for:

- Data Analysts responsible for data quality using QualityStage
- Data Quality Architects
- Data Cleansing Developers

## Prerequisites

You should be familiar with:

- Windows
