IBM Datacap 8.1 - Introduction
Information

Length:	2.0 Days
Ref:	F165G-X
Delivery method:	ClassroomSelf-paced Virtual Training
Price:	EUR

Overview

This course is for those whose job includes responsibility for implementing and configuring data capture solutions using the IBM Datacap software suite.

You work with a fully functioning IBM FileNet P8 system with IBM Datacap installed to practice the skills required to implement and configure data capture solutions.

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the **Self-Paced Virtual Classes and Web-Based Training Classes** on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course.
