New Functions and Features in DB2 11 for zOS
Information

Length: 24.0 Hours
Ref: CV320G □
Delivery method: Classroom
Price: EUR

Overview

Learn about the new features and enhancements of DB2 11 for z/OS, including the technical detail of the functional enhancements of this significant new version of DB2 for z/OS.

Note: This course shall be made available a unit at a time. If you wish to receive training on this new version of DB2 11 for z/OS, contact your training provider to request a class containing the latest content.

Public

This is an intermediate course for system and database administrators, application developers, and other individuals who need a technical introduction to selected new features of DB2 11 for z/OS.

Prerequisites

You should have practical experience with DB2 for z/OS **and** have good knowledge of the functions **and** usage of DB2 10 for z/OS.

Objective

Prior to enrolling, IBM Employees must follow their Division/Department processes to obtain approval to attend this public training class. Failure to follow Division/Department approval processes may result in the IBM Employee being personally responsible for the class charges.

GBS practitioners that use the EViTA system for requesting external training should use that same process for this course. Go to the EViTA site to start this process:
<http://w3.ibm.com/services/gbs/evita/BCSVTEnrl.nsf>

Once you enroll in a GTP class, you will receive a confirmation letter that should show:

- The current GTP list price
- The 20% discounted price available to IBMers. This is the price you will be invoiced for the class.
