IBM Business Process Manager and Watson Cognitive Processes using Bluemix Information

<b>Length:</b>	4.0 Hours
<b>Ref:</b>	WB831G
<b>Delivery method:</b>	ClassroomInstructor Led Online
<b>Price:</b>	EUR

Overview

This course teaches you how to create cognitive business processes. IBM Watson has over 15 cognitive services that you can use to enhance your business processes through language, speech, vision, and data insights, with more services planned for the future. By connecting to the Watson APIs on IBM Bluemix, you can improve your business processes and eliminate common difficulties by adding cognitive solutions to your process.
