

IBM Cúram Express Rules for Business Analysts 6.0.5
Information

Length:	32.0 Hours
Ref:	9D48G
Delivery method:	ClassroomInstructor Led OnlineSelf-paced Virtual Training
Price:	AUD

Overview

This course provides an introduction to building the rules and rule sets that are developed and published via the IBM Cúram Express Rules (CER) framework. The course describes the key business analysis tasks required to transform legislation or other statutory documentation into rule sets that can be defined, published, and maintained via CER. It introduces the concepts and tasks that underpin rules development, focusing on how rules development can be performed via the CER framework. The course covers out-of-the-box CER functionality. It also enables learners to gain practical experience of the CER Editor operations that are typically required of a range of personnel working on Cúram projects.

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the **Self-Paced Virtual Classes and Web-Based Training Classes** on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course.

Public

This course provides an introduction to building the rules and rule sets that are developed and published via the IBM Cúram Express Rules (CER) framework. The course describes the key business analysis tasks required to transform legislation or other statutory documentation into rule sets that can be defined, published, and maintained via CER. It introduces the concepts and tasks that underpin rules development, focusing on how rules development can be performed via the CER framework. The course covers out-of-the-box CER functionality. It also enables learners to gain practical experience of the CER Editor operations that are typically required of a range of personnel working on Cúram projects.

Prerequisites

Required

You should have

- a working knowledge of health **and** human services program
- an experience of typical business analysis activities related to system implementations
- an experience of translating Social Welfare legislation into Eligibility **and** Entitlement business rules

Recommended

You should have attended *Fundamentals of the IBM Cúram SPM Platform for Business Analysts 6.0.5 (9D470)*.

Objective

Prior to enrolling, IBM Employees must follow their Division/Department processes to obtain approval to attend this public training class. Failure to follow Division/Department approval processes may result in the IBM Employee being personally responsible for the class charges.

GBS practitioners that use the EViTA system for requesting external training should use that same process for this course. Go to the EViTA site to start this process:

<http://w3.ibm.com/services/gbs/evita/BCSVTEnrl.nsf>

Once you enroll in a GTP class, you will receive a confirmation letter that should show:

- The current GTP list price
- The 20% discounted price available to IBMers. This is the price you will be invoiced for the class.

Topics

- The main analysis tasks involved in IBM Cúram Express Rules development.
- Analyzing legislation and other statutory documents with a view to translating them into rules and rule sets.
- Rules development via the IBM Cúram CER framework.
- The main features and functions of the IBM Cúram CER Rules Editor application.
- Best-practice interactions between business analysts and developers during rules implementation via CER.
