IBM i2 iBridge User  
Information

**Length:** 2.0 Days  
**Ref:** 9T246G-X  
**Delivery method:** Classroom  
**Price:** EUR

Overview

Discover how to use i2 iBridge to query your data. Using example databases you will learn to locate information then examine it using i2 Analyst's Notebook features. The course is based upon a mixture of lectures, hands-on work, and exercises, giving the opportunity to practice as you learn. Please note that the exercises used on day one and the beginning of day two of the course are taken from the i2 iBridge User Guide.

Public

This intermediate course is for new users of i2 iBridge.

Prerequisites

Required

- A familiarity with Microsoft Windows is essential
- All our courses are conducted in English. It is therefore essential that you have a good understanding of both spoken **and** written English.

Recommended

- An understanding of the concepts **and** use of visual investigative techniques **and** how they will help you in your current job is advantageous
- Experience of using i2 Analyst's Notebook, **or** an awareness of its use would also be an advantage

Objective

- Query your database to find information
