CICS V5 CICSplex System Manager Introduction
Information

Length:	8.0 Hours
Ref:	WM845G
Delivery method:	ClassroomInstructor Led Online
Price:	EUR

Overview

This course introduces you to the CICS TS CICSplex System Manager (CPSM) and its components and functions.

The course provides an overview of the CICSplex SM environment. It covers the CICSplex SM requirements, with an emphasis on the functionality. It explains CICSplex SM components such as the single system image (SSI), workload manager (WLM), real-time analysis (RTA), monitor (MON), and business application services (BAS). The course also covers the web user interface (WUI), design and use considerations, and other interfaces, such as the batch repository utility (BATCHREP), the CICS Explorer, and cloud enablement.

For information about other related courses, visit the IBM Training website:
<http://www.ibm.com/training>

Public

This intermediate-level course is designed for CICS system designers, system programmers, and operations staff members responsible for planning, installing, operating, or managing a CICSplex with CICSplex SM.

Prerequisites

You should be familiar with the control facilitiesand intersystem communication facilities that CICS TS provides.

Objective

Prior to enrolling, IBM Employees must follow their Division/Department processes to obtain approval to attend this public training class. Failure to follow Division/Department approval processes may result in the IBM Employee being personally responsible for the class charges.

GBS practitioners that use the EViTA system for requesting external training should use that same process

for this course. Go to the EViTA site to start this process:

<http://w3.ibm.com/services/gbs/evita/BCSVTEnrl.nsf>

Once you enroll in a GTP class, you will receive a confirmation letter that should show:

The current GTP list price

The 20% discounted price available to IBMers. This is the price you will be invoiced for the class.
