InfoSphere MDM Application Toolkit V11.3
Information

Length: 16.0 Hours
Ref: ZZ870G □
Delivery method: Classroom
Price: EUR

Overview

The InfoSphere MDM Application Toolkit course introduces students to the Business Process Manager (BPM) and the Process Designer to create processes that will use MDM data and services.

This course has a heavy emphasis on exercises and takes a participant through creating a process to search and update a customer's address. The search, get and update services are performed against the InfoSphere MDM.

If you are looking to get an introduction to how BPM and MDM can work together using the MDM Application Toolkit, then this course is for you.

Public

The advanced course is designed for a technical audience that will be using the InfoSphere MDM Application Toolkit to build processes that involve the Physical or Virtual MDM.

Prerequisites

You should be familiar with:

- The InfoSphere MDM software suite **or** attend the *Introduction to InfoSphere MDM V11.3 (1Z801G)* course available online.
- The Business Process Manager software suite **or** watch the following videos prior to attending class:

Objective

Prior to enrolling, IBM Employees must follow their Division/Department processes to obtain approval to attend this public training class. Failure to follow Division/Department approval processes may result in the IBM Employee being personally responsible for the class charges.

GBS practitioners that use the EViTA system for requesting external training should use that same process for this course. Go to the EViTA site to start this process:
