IBM BigInsights BigSheets
Information

Length: 8.0 Hours
Ref: DW644G
Delivery method: Classroom
Price: EUR

Overview

This course is designed to introduce you to the capabilities of BigSheets. BigSheets is a component of IBM BigInsights through the Analyst and the Data Scientist module. It provides the analyst the ability to be able to visualize and analyze data stored on the HDFS using a spreadsheet type interface without any programming.

Public

This intermediate course is designed for business analysts who do not want to deal with any coding to get insight on their data.

Prerequisites

You should have:

- Familiarity with Hadoop **and** the Linux file system.
- Although not required, it would also be helpful for you to take the *IBM BigInsights Overview (DW613G)* to have a better understanding of how BigSheets fit into everything.

You can attend many free courses at www.bigdatauniversity.com to acquire the necessary requirements

Objective

Prior to enrolling, IBM Employees must follow their Division/Department processes to obtain approval to attend this public training class. Failure to follow Division/Department approval processes may result in the IBM Employee being personally responsible for the class charges.

GBS practitioners that use the EViTA system for requesting external training should use that same process for this course. Go to the EViTA site to start this process:
<http://w3.ibm.com/services/gbs/evita/BCSVTEnrl.nsf>

Once you enroll in a GTP class, you will receive a confirmation letter that should show:

- The current GTP list price
- The 20% discounted price is available to IBMers for GTP delivered courses only. This is the price you will be invoiced for the class.

Topics

- Using BigSheets for data analysis
- Making data available to BigSheets
- Navigating a Workbook
- Discovering data with expressions, functions, and formulas
- Integrating with Big SQL
- Visualizing data with Big SQL
